- Ms. Robertson reviewed changes to ITA Policy P5030 – GIS Framework Standards Development. Updates to ITA Policy P5030 were approved.
• Several Cybersecurity Policies were discussed and will be revisited at the next ITLC and ITA meetings.
• ITA formally recognized an Enterprise Cybersecurity Working Group. The proper organization structure is still to be determined.
• Idaho Transportation Department (ITD) gave an update on the GEM program. ITD was dealing with a 40-year-old legacy mainframe system where they needed to migrate and validate 8 million records into one primary system. ITD did not realize how bad the data was causing delays, since they have done a lot of cleanup; nearly 800 system improvements have been implemented.
